Brian Doty's Xtreme Outdoor Adventures™ is a top rated TV Show with lots of action and a strong focus on family. He is one of the industries fastest growing celebrities and takes you from North America to Africa to give you a real inside look at the sport he loves. Along with his aggressive hunting techniques and an occasional visit from Co-hosts, Misty and Hunter Doty, Brian keeps the show real, energetic, and a down right good time. Brian Doty's XOA™ airs year round on *The Pursuit Channel* and *The Sportsman Channel*. He was recently recognized for his excellent programming and nomination for Best New Series of 2007 at *The Sportsman Channel Awards* in Las Vegas

When Brian is not in front of the XOA™ cameras you'll find him at hunting and sporting expos giving seminars or on a commercial promoting a wide variety of hunting products.

Brian Doty is also a full-time professional hunter. His enthusiasm for the outdoors as a child is what fueled his life-long passion. Brian's focus is not only to harvest trophy animals, but also to educate, conserve and promote the sport he loves. Brian said, "My passion is showing and teaching others respect for the outdoors and our wildlife. We all have a responsibility that goes beyond just hunting a trophy whitetail. I've spent thousands of hours in the woods building food plots and learning about the habitat and behavior of all the animals I hunt. These things were instilled in me as I was growing up and I would like to pass them on to others". This forward thinking has given him a unique perspective, not shared by many. He has rapidly developed a solid reputation and is highly respected in the hunting industry.
